## PROFESSIONAL POSITIONS

- 2012–2013    Research Assistant to Richard Fuller, The University of Queensland, Australia
- 2012–2013    Research Assistant to Jonathon Rhodes, The University of Queensland, Australia
- 2012    Casual Professional Staff, The School of Biological Sciences, The University of Queensland, Australia

## RESEARCH INTERESTS

My research concerns the challenges involved in conserving biodiversity. I am interested in understanding how management actions can achieve conservation objectives for minimal cost. In particular, I specialize in creating cost-effective plans for protected area networks using limited data.
